

C MODEL | GRAIN

C Model mixers are designed to withstand long use for mixing grain, animal feed and seed. An unpainted interior ensures no paint ever comes into contact with your mix*.

- 35 pounds / ft³
- Batch capacity: 65-400 tons ft³ (1,000-6,000 lbs)

An eight-inch conveying screw quickly moves grain away from the blender.

D MODEL | FERTILIZER

Used for large-scale fertilizer and plastics blending, D Model mixers deliver a thorough, homogenous blend. The painted interior protects the stainless or mild steel drum to extend the life of your mixer*.

- 60 pounds / ft³
- Batch capacity: 2-8 tons
- 12" auger

Also available as a double drive system, which allow customers to control drum speed and discharge rate separately.

E MODEL | REFRACTORY

Durable, consistent and cost-effective, E Model mixers have low power requirements. With their external bearings, E Model mixers minimize friction inside the drum barrel.

- 65 pounds / ft³
- Batch capacity: 2-5 tons
- 12" auger

Also available as a double drive system.

*All models available with or without painted interiors.

ABOUT BURTON

Burton dry mixers are crafted in the United States for customers like you, who demand precision mixing. Every mixer is built for maximum longevity using heavy gauge stainless or mild steel. Our round barrel design keeps materials away from corners and ensures the most thorough blend. Single- and double-drive options give you control over drum and discharge speeds.

AT BURTON, EVERY MIXER CONTAINS A PROMISE OF RELIABILITY, FROM OUR FAMILY TO YOURS. EVERY DAY, THROUGH EVERY SEASON, YOU CAN COUNT ON US TO DELIVER A THOROUGH, ACCURATE MIX. IT'S WHY GENERATIONS OF CUSTOMERS COME BACK TO BURTON.

Our experienced engineers custom-design every mixer to your exact specifications, including available workspace and indoor or outdoor applications. Burton mixers are constructed for maximum energy efficiency and minimum maintenance. And our All Parts Available™ guarantee means you'll always be able to get the replacement part you need.

FIND A DISTRIBUTOR
